Address: Patna District, Bihar 801110

Profile Summary

Result-driven **.NET MVC Full Stack Developer** with 45 Days of professional experience in designing, developing, and maintaining scalable web application and enterprise-level software solutions. Proficient in front-end technologies like **HTML, CSS, JavaScript, Angular/React**, and back-end expertise in **C#, ASP.NET MVC, Web API, Entity Framework, and LINQ**. Skilled in database management with **SQL Server** and experienced in integrating third-party APIs and services. Adept at implementing Agile development methodologies, ensuring code quality through unit testing, and optimizing application performance. Passionate about delivering innovative solutions to complex business challenges and enhancing user experiences.

Work Experience

Software Developer Engineer - 1
MECATREDZ TECHNOLOGY PVT. LTD., LUCKNOW
September 2024

1 August 2024 – 15 September 2024

Responsibilities:

- Collaborated with clients and stakeholders to gather, analyze, and document software requirements.
- Design solution aligned with business need and technical feasibility.
- Design and developed robust APIs and backend logic using **ASP.NET MVC** and **C#**.
- Handle database design, optimization, and maintenance with **SQL Server** and **Entity Framework**.
- Enhanced user experiences with advanced front-end technologies like **AngularJS** or **React** (if applicable).
- Wrote clean, modular, and scalable code following **SOLID principles** and best practices.

Achievements:

- Optimized application performance** by implementing efficient database queries and reducing page load time by 30%.
- Focus on Impact** Highlight how your contributions benefited the organization, users, or the project.
- Be Specific** Quantity your accomplishments with numbers, percentages, or measurable outcomes.
